WE REDUCE

We are constantly working to further optimize all processes and resources so that our children inherit a better world.

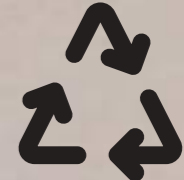

WE REUSE

Our products are designed to withstand temperature limits and extreme weather elements. The long life of our products helps to reduce waste and makes way for more responsible consumption.

WE RECYCLE

Our design and development team have created the first collection of outdoor lamps made exclusively from recycled plastic from the seas and oceans (Greta P 92).

RECYCLABLE

All our products are recyclable. In addition, we work with specialised companies so that all our waste generated in our different processes is processed and recycled thoroughly.

O F M E M O R I E S

PROUD
MAKERS
OF
"BE HAPPY"
SPIRIT

Sun is our energy.

The power of the sun is unimaginable. It is capable of generating life, inspiring our personality or changing our state of mind in seconds. At Newgarden we know about its power. That is why, since our beginnings, its energy has been the protagonist in our products. This is why we have ensured that the majority of our designs are available with a solar option.

Nature is our mother.

And we love her as if she were our mother. Newgarden works every day to improve all our processes in order to protect and care for our environment. We are not content with all of our products being recyclable: we have designed Greta, a collection of lamps made exclusively from recycled materials (P 92).

PASSIONATE ABOUT HANDMADE AND NATURAL FIBERS

Natural fibres such as hemp or bamboo are widely represented in our collection. Hand-made, they are able to transport us to nature and the Mediterranean just by looking at them.

THINK LOCAL

We collaborate with specialised local producers within their regions - this helps to grow their economies and support infrastructure development.

NATURE LOVERS

All our products are 100% recyclable and have a long life span, helping to reduce waste and promoting responsible consumption.

FRIENDS OF THE SEA

For every lamp in the Greta Collection (P 92) that we make, we help to give a second life to the plastic collected from the seas and oceans.

1- MATERIALS

	Material	Find it at:
Plastic	Polyethylene (PE)	It is mainly found in products manufactured by rotational moulding.
	ABS	Enoki, Chiara, Norai, Bitá, Sora
	PVC	Coating of the Garland bulbs.
	Silicone	Rocket 20, Panchito
	Polyamide	Nómada Handle
	PP Difusor	Lola Slim 30, Lola 20
	Recycled Plastic	Greta
Metal	Iron Painted	Chloe Plant, Lola slim, Helga, Amalfi, Niza, Bruna
	Aluminium	Cooler
	Steel	Weight Paquita, Pepita & Fity
Organic	Phenolic Compounds	Itaca, Creta accesory
	Bamboo*	Reona, Ilaria, Tarida Arms
	Ratán*	Amalfi, Bossa, Calobra, Saona
	Jute*	Allegra, Aurora garlands
	Seagrass *	Benirrás, Positano, Sisine, Niza
	Beech Wood *	Chloe, Rocket family
Crystal	Crystal	Chiara, Ilaria, Simona Bulbs
Fabric	Composition: 80% pvc 18% pes 2% pu	Mattres & Pillow Formentera, Tarida Sit
Vegan Leather	Synthetic leather. Polyurethane.*	Kurby, Faralay, Woody handle
Ceramic		Bora marble
Methacrylate	High resistance to external aggressions Non-porous surface	Creta, Ibiza, Tarida tab, Capri family, Melvin, Sicilia.

(*) For correct maintenance, it is advisable to protect it from rain, direct exposure to the sun and sudden changes in temperature. The bamboo, rattan, beech or seagrass are natural materials, reason why changes of colour or cracks can happen. In case they are wanted to be exposed to the elements, it is recommended to protect them with some oil or varnish adapted for the material in concrete regularly, thus will prolong the protection to rain, the rays UV and will extend the life of the product. To clean them up, use a cloth or brush to remove dust and a sponge slightly moistened with neutral soap and rub gently. For more information, please consult us.

2 - POLYETHYLENE TEXTURES

The finishes of Newgarden products made of polyethylene have a visually smooth and soft granulated finish that is very pleasant to the touch.

SMOOTH TEXTURE
Polyethylene

The rustic finish can be found in a very specific selection of flowerpots.

4- USE ACCORDING TO IP

We are going to explain in a very simple way the possibilities of use of Newgarden products according to their IP (index of protection of the electrical or electronic system against external agents)

IP20

Newgarden products with IP20 can only be used indoors, the electrical system, switches or cables must be protected from direct contact with water. Remember that although the product is made of Polyethylene resistant to the outside, this electrical system is designed for **indoor use only**.

IP43

Newgarden products with IP 43 / 44 can be used outdoors, it is protected against dust and weak and very moderate rain. **If this product also has accessories made of natural fibres, wood or metal parts, it is advisable to protect it from direct contact with water and humidity.** Store in a dry place after use. In the event of rain or very adverse weather conditions, it should be protected from the elements to avoid future problems.

IP44

IP54

Newgarden products with IP 54 **can be used outdoors, are protected against dust and light rain.** If this product also has accessories made of natural fibres, wood or metal parts, it is advisable to protect it from direct contact with water and humidity. Store in a dry place after use. In case of rain or very adverse weather conditions it must be protected from the weather to avoid future problems.

IP65

Newgarden products with IP 65 **can be used outdoors, they are airtight against dust and rain. If this product also has accessories made of natural fibres, wood or metal parts, it is advisable to protect it from direct contact with water and humidity.** Store in a dry place after use. In case of rain or very adverse weather conditions it must be protected from the weather to avoid future problems.

IP68

Newgarden products with IP 68 can be used outdoors, they are airtight against dust and rain. **It is also floating (not submersible) so you can use it in your pool.** In case of very adverse weather conditions it must be protected from the elements to avoid future problems.
